Certificate of Analysis

18-7776

| | | | |
|------------------|--|-------------------|--------------|
| Job Number: | 18-7776 | Sample Received: | 17/09/2018 |
| Customer Ref(s): | | Date of Analysis: | 19/09/2018 |
| | | Analyst | Kevin Watson |
| | | Date of Report: | 19/09/2018 |
| Customer: | Scientific Laboratory Supplies, Wilford Industrial Estate Ruddington Lane Wilford Nottingham | | |
| Sample Ex: | Wilford Industrial Estate, Ruddington Lane, Wilford, Nottingham, NG11 7EP | | |

| Our Reference | Sample Reference / Sample Location / description# | Result (Crocidolite, Amosite, Chrysotile, Anthophyllite, Tremolite, Actinolite) |
|---------------|---|--|
| 25491 / 19424 | C530B - Clay pipe triangle 50mm | None Detected |
| 25492 / 19425 | C74A - Crucible with lid 15mm 40mm | None Detected |
| 25493 / 19426 | CRU2000 - Crucible low form porcelain 15ml | None Detected |
| 25494 / 19427 | BAS2017 - Porcelain evaporation dish flat | None Detected |
| 25495 / 19428 | BAS1104 - Basin pocelain 75ml shallow form | None Detected |

These samples have been examined in accordance with a documented in-house method (FIBREID) based on HSG248 The analyst's guide for sampling, analysis and clearance procedures.

Pattinson Scientific Services Limited do not accept responsibility for sampling procedures not carried out by ourselves nor for any information supplied by the customer relating to samples, or the effect such sampling/information may have on the subsequent interpretation resulting from analysis of those samples.

This certificate shall not be reproduced except in full without the written approval of the laboratory.

Samples will be retained for six months before disposal.

Any opinions or interpretations marked # expressed in this certificate are outside our scope of UKAS accreditation.
